NANDAN KUMAR(BCA2326088)

Mentor By:

Mr. VIPIN MAURYA

PROJECT SUMMARY

PROBLEM STATEMENT

Traditional pottery and sandstone artisans in India face major challenges in reaching wider markets. Although their products are unique and carry cultural value, artisans struggle with limited market access, middlemen exploitation, and lack of digital presence. Modern consumers are shifting towards large e-commerce platforms like Amazon and Flipkart, where such local products are either missing or overshadowed.

As a result, artisans find it difficult to grow their income, and many traditional crafts are at risk of being forgotten. Without proper promotion and digital support, the livelihood of artisans and the cultural heritage of pottery and sandstone may decline over time.

OUR VISION

Our vision is to create a **dedicated e-commerce and showcase platform for Clay Pottery and Sandstone products**, directly connecting artisans with national and international customers. Instead of depending on middlemen or large platforms, this project will provide artisans with their own digital space where they can display, sell, and promote their crafts.

The platform will be simple and user-friendly, ensuring that both artisans and buyers find it easy to use. Customers will be able to explore authentic products, learn about the artisans' stories, and purchase items directly. In future scope, features like secure payment integration, order tracking, and promotional tools will help artisans grow their business independently.

KEY BENEFITS AND EFFECTIVENESS

➤ For Customers:

- Access to authentic, handmade pottery and sandstone products.
- Transparent pricing and artisan details.
- Easy ordering process, secure payment, and delivery support.
- Contribution to preserving traditional art and culture.

➤ For Artisans (Vendors):

- Digital presence without depending on middlemen.

- Wider reach to national and international buyers.
- Better income opportunities and customer trust.
- A platform to showcase skills and cultural heritage.

➤ **For Community & Culture:**

- Preserves and promotes traditional Indian crafts globally.
- Generates employment opportunities in the local artisan sector.
- Strengthens small businesses and boosts rural economy.
- Helps sustain India's cultural identity in modern times.
